Buenos Aires - Argentina

ABOUT ME

I'm passionate about technology and innovation; I believe that we are in the midst of a digital and cultural transformation, in which empathetic and user-oriented people are needed to make this change a much more human and pleasant experience. Today I seek to be part of this transformation by improving the experience of digital users.

I developed my career both in Fintech and in traditional banking, always in positions related to user experience, and currently in web design and development.

WORK EXPERIENCE

Banco Ciudad (sep 2021 - ongoing)
Jr Developer

- Help with the design and development of software.
- Write clean code, mainly for the front-end.
